SUMMARY

Computer science graduate with academic and project experience in Python and web development. Looking for an entry-level software developer role to apply and grow technical skills.

TECHNICAL SKILLS

Languages: Python, Java, basic JavaScript

Web: HTML, CSS, Flask (basic)

Databases: MySQL (academic projects only)

Tools: Git, VS Code, basic Linux commands

EXPERIENCE

Software Development Trainee — Local IT Training Center (3-month program, 2024)

- Completed guided coursework on Python and Flask, building small CRUD applications
- Assisted in testing a college-internal attendance tracking tool

PROJECTS

Student Attendance System (Flask, MySQL)

- Built a basic web app to mark and view student attendance using Flask and MySQL, no deployment

Personal Portfolio Website (HTML, CSS)

- Static personal website hosted on GitHub Pages

EDUCATION

B.Tech, Computer Science and Engineering — Regional Engineering College, 2024, CGPA: 6.8/10

CERTIFICATIONS

Python for Beginners — Udemy (in progress)
